DATA ANALYST

Data Analyst with hands-on internship experience in **SQL**, **Python**, **Power BI**, and **Advanced Excel (VBA)**. Skilled in data cleaning, exploratory data analysis, trend and root-cause analysis, **metrics and KPI reporting**, **process optimization**, and interactive dashboard development. Experienced in analyzing financial, e-commerce sales, seller-performance, customer, and workforce data to deliver actionable insights and support data-driven business decisions.

TECHNICAL SKILLS

Reporting & Analytics: SQL, Python, Advanced Excel, VBA, Pandas, NumPy, Exploratory Data Analysis, Statistical Analysis, Metrics Analysis
BI & Visualization: Power BI, DAX, Power Query, Tableau, Data Visualization, Dashboard Development, KPI Reporting
Business Analysis: Root-Cause Analysis, Trend Analysis, Process Optimization, Data Validation, Reporting Automation, Business Insights, Stakeholder Communication
Databases & Tools: Relational Databases (MySQL), Matplotlib, Seaborn, Git, GitHub, Google Colab

EXPERIENCE

Data Analyst Intern January 2026 – May 2026
ProCapitas *India*

- Queried and cleaned financial datasets using **SQL**, identifying data inconsistencies to improve the accuracy and reliability of recurring reports
- Built **Power BI** dashboards on investment trends, used by the team lead and stakeholders to support faster decision-making through clear data visualization
- Performed exploratory data analysis in **Python** and **Advanced Excel** to generate actionable insights that informed investment strategy
- **Optimized** the reporting workflow by **automating** repetitive data preparation and reporting tasks in collaboration with cross-functional teams
- Delivered weekly analytical reports with business recommendations to the team lead, communicating data insights clearly to stakeholders

PROJECTS

E-Commerce Sales & Customer Analytics *SQL (MySQL), Python, Pandas, Matplotlib*

- Analyzed **99,000** e-commerce transactions using SQL (MySQL) and Python to identify sales, purchasing, payment, and seller-performance trends
- Found that **49.42%** of transactions used installment payments, and identified low repeat-purchase behavior through customer-level order analysis, with most customers placing a single order
- Performed advanced SQL analysis – joins, aggregations, window functions, moving averages, cumulative monthly sales, and year-over-year growth – across customer, order, and payment tables
- Translated findings on payment modes and channels into recommendations: loyalty programs, installment promotion, and seller diversification

Credit Card Customer & Revenue Analytics *Power BI, DAX*

- Designed a two-page Power BI dashboard with dynamic KPIs, drill-through reports, and DAX-driven filters (gender, age group, income group)
- Conducted trend and root-cause analysis: self-employed customers formed the largest segment, swipe transactions drove **62.6%** of revenue, and Blue-tier cards generated **$38M** vs. $1M for Platinum
- Built a second dashboard view analyzing revenue by channel, card category, and expense type, tracking week-over-week growth and interest earned
- Identified high-value customer segments and spending patterns, translating findings into targeted retention and marketing recommendations

HR Attrition Analytics *Power BI, Excel*

- Used **Excel** for data preparation and built an interactive Power BI dashboard analyzing attrition across **1,470** employees, identifying **237** exits (**16.12%** attrition rate) and an average income of **$6,503**
- Performed segmentation and root-cause analysis across overtime, tenure, job level, job satisfaction, income group, department, role, age group, and gender to identify high-risk employee groups
- Translated findings into workforce planning and retention recommendations for segments with elevated attrition risk

EDUCATION

Shri Ram Institute of Technology, Jabalpur 2022 – 2026
Bachelor of Technology (B.Tech) – Computer Science & Engineering *Affiliated to RGPV, Bhopal*

- CGPA: **8.2/10** (Distinction & Honours)

CERTIFICATIONS

- SQL (Intermediate) & Python – HackerRank
- Data Visualization with Power BI – Jobaaj Learnings
- Data Analytics Certification – Jobaaj Learnings
- Business Analysis & Process Management – Coursera
- Introduction to Business Analysis Using Spreadsheets – Coursera
- Data Visualization with Tableau – Jobaaj Learnings

SOFT SKILLS

Written & Verbal Communication, Attention to Detail, Analytical & Problem Solving, Time Management & Prioritization, Collaboration, Self-Motivation, Quick Learner, Ownership & Accountability
